

SAP PLANT MAINTENANCE NOTIFICATIONS

SYS-SAPP-02

\$599 AUD excl. GST

OVERVIEW

SAP Maintenance Notifications play an important role by providing technical information about plant condition, notifying maintenance personnel about a request for maintenance, and supports effective SAP reporting functions. We will explore Plant Maintenance Notifications in SAP enabling learners to identify secondary and breakdown maintenance work and effectively capture notifications in SAP.

Designed for Maintainers, Planners, Supervisors, Master Data and System Professionals.

It is recommended that learners have the knowledge of **SAP Essentials** prior to starting any SAP Courses.

All AMLA online courses can be completed in your own time and at your own pace with the assistance of course forums, online chat, and email. Courses are accessible for 12 months from enrolment.
